Experience

2025
Bosporus Real EstatelBusiness Bay,Dubai,UAE

Senior Web Dveloper

- Led the development of a full-featured real estate platform using Laravel, implementing advanced property listing modules with filters, geolocation, and custom search algorithms.
- Designed and optimized relational database schemas for dynamic property data, user roles (agents, sellers, buyers), and transaction histories using MySQL and Eloquent ORM.
- Integrated third-party APIs (e.g., Google Maps, OpenStreetMap, WhatsApp API) for map-based property views, location search, and instant lead communication.
- Built secure authentication and authorization workflows using Laravel Sanctum, with role-based dashboards and permission management for agents, admins, and buyers.
- Implemented queue systems for image processing, email notifications, and bulk property imports using Laravel Queues, Jobs, and Redis.
- Collaborated with frontend developers to deliver seamless UI/UX using Laravel Blade.
